

TECHNIQUES TO FIND A PROJECT TOPIC FOR APPROVAL

Presented by : Ishimwe M. Prince

I. SCOPE OF PRESENTATION

- Description of the Current System Environment
- Description of the current System
- Problems with the Current System

II. Description of Current System Environment

- Case Study Organization **Historical Background**
- Case Study Organization **Mission**
- Case Study Organization **Vision**
- Case Study Organization **Structure**

III. Description of Current System

- Current System Actors
- Actors role and Responsibilities

IV. Problems with the Current System

- Performance – The need to improve performance
 - ✓ Throughput
 - ✓ Response Time
- Information (and Data) – The need to improve Information (Data)
 - ✓ Input
 - ✓ Output
 - ✓ Storage
- Economics- The need to improve economics, control costs or increase profits
 - ✓ Profit
 - ✓ Loss

IV. Problems with the Current System

- Control (and Security) – The need to control and Security
 - ✓ Too little security or Control
 - ✓ Too much security or control
- Efficiency – The need to improve efficiency of people and process
 - ✓ People
 - ✓ Machines
 - ✓ Computers

IV. Problems with the Current System

- Service – The need to improve service to customers, Suppliers, partners ...
 - The system produces inaccurate results
 - The system produces inconsistent results
 - The system produces unreliable results
 - The system is not easy to learn
 - The system is not easy to use
 - The system is awkward to use
 - The system is inflexible to new or exceptional situations
 - The system is inflexible to change
 - The system is incompatible with other systems
 - The system is not coordinated with other systems
